

OLIVER MARBLE TABLES

Luxury Oliver table series with Italian Carrara marble tray top and solid brass or black steel frame. Ideal for use as bedside tables or accent tables in living areas. The T-shaped frame allows pieces to be layered with other items from the Oliver planter and table range or over your existing furniture elements such as a sofa corner or coffee table. The frame design also allows for an additional second marble tray to be used in the frame base to increase your shelf space for a lamp or home decor.
